Pictured Above: Roy Becker and Dante Tobias

---

Date: 10/25/2012

Employee Name(s): Roy Becker and Dante Tobias

Superintendent: Steve Lucas

Company: Infinity Construction Services, LP

Dante and Roy were performing a walk-thru in the 700 block of BASF, Freeport. During the walk-thru, Dante discovered employees of another contract company removing plywood from the deck on an Infinity scaffold to use the wood as a leveling device for a piece of machinery. When the plywood was removed, a hole was left in the scaffold deck. Roy took the initiative to stop the contract company employees from removing the plywood, coach them on the hazards of modifying scaffolds and had the scaffold repaired.

We appreciate your efforts Roy and Dante.

Russell Cannon – Site Safety Manager
